## **ASC Recording Insights: COVID-19 Relief Offer**

Order now and get 30 days free of charge for all users!

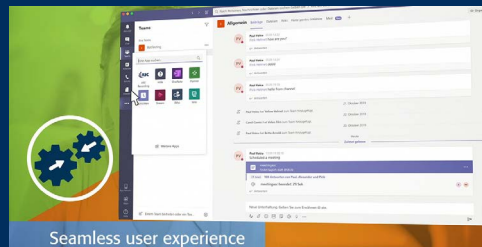

In the wake of the COVID-19 pandemic, more and more companies are looking for alternatives to enable their employees to use familiar processes while working from home. ASC Recording Insights is the ideal solution for companies subject to strict compliance regulations such as MiFID II, HIPAA, Dodd-Frank, or FinVermV to meet these requirements.

**[»Compliance Recording & Analytics in Microsoft Teams](#)**

Being a selected Microsoft partner for compliance recording, ASC offers the currently only native recording and analysis app integrated in Microsoft Teams. The new cloud service guarantees legally compliant recording and analysis for the entire communication in Microsoft Teams - including 1:1 calls, meetings, and chats. Analysis tools help to assess the recorded data and to ensure the uninterrupted compliance with legal regulations on the secure basis of Microsoft Azure.
